Welcome to the 14th International Family Nursing Conference (IFNC14)!

I am delighted to welcome you to historic Washington D.C. for IFNC14. Our theme is “Social Determinants of Family Health: Expanding Family Nursing Capacity.” Over the next few days we will enrich our family nursing knowledge and our supportive, global family nursing community.

The IFNC14 program promises to be remarkable and reflects the hard work and innovation of IFNA members and exceptional keynote speakers. I want to particularly acknowledge and thank Dr. June Horowitz and Dr. Sonja Meiers, co-chairs of the Conference Planning Committee, and their committee members. Planning for IFNC14 began shortly after IFNC13, and their dedication and hard work are exceptional. Along with Kassalen Meetings & Events, they have prepared an impressive program. Based on feedback from IFNC13 attendees, our focus will be on the influence of policy on family health and care, and events will be held in one central location in a very walkable city sprinkled with appetizing dining choices.

I am also grateful for the continued generous financial support from our sponsors, especially Children’s National Health System, our Official Conference Sponsor, and the Glen Taylor Institute for Family and Society and the College of Allied Health & Nursing at Minnesota State University, Mankato, our Gold Sponsor.

Highlights of IFNC14 include:
• For the first time, we will hold a graduate student networking session.
• With great enthusiasm, we welcome our two new IFNA chapters (UK/Ireland and Australia/New Zealand).
• Through the generosity of IFNA members who donated to the Honor Families and Family Nurses Program and the Dr. Kathryn Hoehn Anderson Student Travel Fund, travel awards were extended to eight students to attend IFNC14.

I hope you will find time to network with old and new friends at the conference. I’m looking forward to the Spirit of Washington Cruise on the Potomac and the commemoration of Florence Nightingale at our closing. I hope you will join me at these and other events during the conference.

Welcome and thank you for coming!

Conference Overview

The 14th International Family Nursing Conference, with our conference theme “Social Determinants of Family Health: Expanding Family Nursing Capacity”, will focus on engaging nurses and interdisciplinary colleagues in discussion of social determinants of health facing families worldwide. With an emphasis on understanding how families impact and are impacted by social determinants, the conference will focus on promoting community-engaged learning/collaboration among researchers, clinicians, educators, and community stakeholders to expand the capacity of family nurses for improving family health and well-being.

Education

1. To emphasize model approaches for strengthening nursing education in social determinants of family health.
2. To highlight service-learning in partnership with the family and community as an approach to enhancing family health around the globe.
3. To promote assessment and measurement of family nursing outcomes relevant to social determinants of health at all levels of nursing education.

Practice

1. To identify strategies for family nursing practice uniquely considering social determinants such as poverty, hunger, homelessness, stigma, and racism across the globe.
2. To highlight family nursing practice innovations and models which consider social determinants of family health.
3. To examine practice implications of considering social determinants of family health from an international perspective.

Research

1. To identify and describe disparities influencing family health or family health care.
2. To provide a forum for dialogue around the multifactorial determinants of family health disparities facing family researchers worldwide.
3. To highlight innovative design and testing of targeted family interventions, including approaches to enhance family engagement in research design and implementation, the use of community-based participatory research approaches, and the use of emerging technologies.

Policy/Leadership

1. To examine the role of formal structures and informal social systems influencing contemporary social determinants of family health.
2. To identify strategies for increasing family nurses’ knowledge and advocacy for policies and programs that support family health at the local, national, and international level.
3. To highlight opportunities for encouraging family nurses to take active roles in health care policy and health care leadership in support of family health and family care worldwide.
Keynote Speakers
Our speakers combine strong programs of research with a solid grounding in clinical practice. Their work centers on some of the key challenges facing families worldwide.

Opening Keynote
Gala True, PhD
Investigator, South Central Mental Illness Research and Education Center (MIRECC)
Associate Professor of Community and Population Medicine
Louisiana State University School of Medicine, New Orleans, Louisiana, USA
Dr. Gala True is an Investigator with the South Central Mental Illness Research and Education Center (MIRECC) at the Southeast Louisiana Veterans Health Care System (SLVHCS) and Associate Professor of Community and Population Medicine at Louisiana State University School of Medicine. With a background in folklore and anthropology, her research focuses on improving access to care and the health of individuals and communities through patient-centered and community-engaged research approaches. Her most recent research employs participatory action research methods to collaborate with veterans, military families, and other key stakeholders on identifying barriers to post-deployment care and proposing solutions for improving community reintegration after separation from military service.

Sharon Urbina, Co-Presenter
Sharon Urbina is a caregiver to her husband, Carlos, who served in the United States Marine Corps for 16 years and sustained multiple traumatic brain injuries and post-traumatic stress from his two tours to Iraq. She is also a new mother, as she and Carlos recently had their first child. She is the Louisiana Fellow with the Elizabeth Dole Foundation, where she works to create community coalitions focused on understanding and addressing unmet needs of military caregivers and families. Sharon uses her story and advocacy position to raise awareness in her community by telling her story to local veteran organizations, media outlets, and caregiver events. Throughout her journey, Sharon has learned to navigate health care systems and programs to advocate for her husband’s healthcare needs. She and Gala True have been collaborating on research together for the past three years, including development of an exhibit of veteran and caregiver photo-narratives and a forthcoming paper in the Journal of Humanistic Psychology.

Day Two Keynote
Hester C. Klopper, PhD, MBA, HonsD, FANSA, FAAN, ASSAF
Deputy Vice Chancellor, Strategy and Internationalization
Stellenbosch University, Stellenbosch, South Africa
Dr. Hester Klopper is an international academic leader with global recognition for her work. She is the Deputy Vice Chancellor (Vice-President) for Strategy and Internationalisation at Stellenbosch University in South Africa. In addition, she is a Professor in the Department of Global Health, Faculty of Medicine and Health Sciences. Global health has become a focus area of her work over the past decade, and through her visionary leadership, the Global Advisory Panel on the future of Nursing and Midwifery (GAPFON) was established (convened by Sigma). In country, she is a Fellow of the Academy of Nursing of South Africa (FANSA), a member of the South African Academy for Science and Art, and member of the Institute of Directors of South Africa (IODSA).

Closing Keynote
Sheila Dinotshe Tlou, PhD, RN, FAAN
Co-Chair, Global HIV Prevention Coalition
Co-Chair, Nursing Now Global Campaign
Johannesburg, South Africa
Dr. Sheila Tlou is the Co-Chair of the Global HIV Prevention Coalition. She has conducted research and taught courses to nursing, pre-medical, and social science students on gender issues relating to HIV/AIDS, Sexual and Reproductive Health and Rights, and Aging and Older Persons. She has played a key role in the development of national nursing and medical education curricula, working to broaden the scope of Health Sciences education in her home country of Botswana. She is the founder of the Botswana chapter of the Society of Women and AIDS in Africa (SWAA) in which volunteers are trained in home-based care and educate families on HIV prevention, human rights, and caring for people living with AIDS.
The College of Allied Health and Nursing at Minnesota State University, Mankato promotes health and wellness through real-world experiences in state-of-the-art facilities. We prepare professionals who serve as strong partners in improving the wellbeing of people and families in our communities, our region and our world.

- School of Nursing

Our School of Nursing prepares nurses who understand the importance of family and society in the healthcare setting. We offer an on-campus bachelor’s program as well as doctoral programs that are available almost completely online. Our RN Baccalaureate Completion Program is fully online!

**NEW!** Fill a critical need in the healthcare industry and help people lead healthier lives with an online master’s degree in Wellness Coaching and Disease Prevention!

Learn more at ahn.mnsu.edu
The School of Nursing at Minnesota State University, Mankato prepares nurses who understand the importance of family and society in health care. The family-focused curriculum and simulation experiences in our baccalaureate, master’s and doctoral programs help students learn evidence-based practice in caring for individuals, families and communities.

THE HEALTH COMMONS AT POND
The Health Commons at Pond partners with students, families and communities to promote health and wellness in a no-cost environment. Care is provided by Minnesota State University, Mankato faculty and graduate-level Family Nurse Practitioner students, in collaboration with other providers as needed.

The Health Commons at Pond also creates opportunities to engage in interprofessional work with other disciplines within the College of Allied Health and Nursing. Both Communications Sciences and Disorders and Community Health have worked with patients there as well, and opportunities exist for additional disciplines to participate.

MAVERICK FAMILY NURSING SIMULATION CENTER
The 16,000-square-foot Maverick Family Nursing Simulation Center in the new Clinical Sciences Building provides access to 13 high fidelity mannequins ranging from newborns to adults. As soon as students are accepted into the School of Nursing, they spend significant time in simulation scenarios. The expanded space and enhanced equipment resources also create opportunities for workforce training.

WORKFORCE TRAINING
Industry professionals receive critical training within the state-of-the-art Maverick Family Nursing Simulation Center. Nursing professionals will create training solutions customized to meet the learning objectives of each client and group and immerse staff in real-life situations, which improves proficiency while providing critical training and hands-on exposure to high-risk/low-occurrence incidents. Training options also address professional certifications, industry requirements, and facility goals.

GRADUATE PROGRAMS
In addition to its undergraduate prelicensure nursing program and online RN Baccalaureate Completion program, Minnesota State Mankato’s School of Nursing offers a Doctor of Nursing Practice program with preparation as a Family Nurse Practitioner, a post-APRN Master’s to DNP program, and a post nursing masters graduate certificate program. Students are eligible to take the certification exam for Family Nurse Practitioner.

Congratulations to Drs. John S. Rolland and Froma Walsh on receiving the 2019 IFNA Distinguished Partner in Family Health Care Award

John S. Rolland, MD, MPH and Froma Walsh, PhD, MSW, are Co-Founders and Co-Directors of the Chicago Center for Family Health. Dr. Rolland is Professor of Psychiatry and Behavioral Sciences at Northwestern University Feinberg School of Medicine. Dr. Walsh is the Mose and Sylvia Firestone Professor Emerita in the School of Social Service Administration and the Department of Psychiatry at the Pritzker School of Medicine, University of Chicago.

Helping Couples and Families Navigate Illness and Disability
An Integrated Approach
John S. Rolland, MD, MPH
“A ‘must read’ for family nursing and family health scholars and clinicians who envision a culture change in health care where systemic family-oriented assessment and interventions are offered as standard care for all.”
—Janice M. Bell, RN, PhD
Couples and families face daunting challenges as they cope with serious illness and disability. This book gives clinicians a roadmap for helping affected individuals and their loved ones live well with a wide range of child, adult, and later-life conditions.

Strengthening Family Resilience, THIRD EDITION
Froma Walsh, MSW, PhD
“While most therapists search for a cure for an illness, Froma Walsh explores the potential in families for wellness....This book is an antidote to the simplistic labeling of diagnostic manuals.”
—Salvador Minuchin, MD
In this widely used book, Froma Walsh provides a state-of-the-art framework for understanding resilience in families and how to foster it. Illuminating the complex interplay of biopsychosocial influences in risk and resilience, she identifies key transactional processes that enable struggling families to grow stronger and more resourceful.

Spiritual Resources in Family Therapy
SECOND EDITION
Edited by
Froma Walsh, MSW, PhD
“Capturing the diversity of contemporary families, the contributors provide an array of approaches for helping people cope assertively with losses, injustices, and adversities in their lives.”
—James L. Griffith, MD
Leading experts in family therapy and pastoral care discuss how faith beliefs and practices can foster personal and relational well-being, how religious conflicts or a spiritual void can contribute to distress, and what therapists can gain from reflecting on their own spiritual journeys. The volume is rich with insights for working with multi-faith and culturally diverse clients.

Diane Quinn, she is an incredible human being, mother, co-worker and friend. She is so kind, generous, and fun to work with and is one of the reasons I love working at UMMS!! She has an incredible family (3 healthy, happy emerging adults) that she has nurtured with her terrific husband Dan. What a pleasure to watch their family grow as a unit.
Susan Sullivan Bolyai

Roberta Rehm, commitment to improve health of children with complex health disorders.
Kit Chesla

Kathy Sawin, for her contributions to the profession of nursing during her career as a nurse educator and a nurse scientist, focusing on children with chronic illnesses. Her research has helped improve the care for children with spina bifida and other chronic conditions. Kathy knows nurses are critical to research because they tend to focus on different phenomena than doctors, immersing themselves into investigating the family’s response to that condition. Nurses look at quality of life, pain, end-of-life care, coping enhancements or alternative ways to structure procedures. Kathy also mentors other new nurse scientists and supports the profession of nursing. Kathy has been a mentor to support the investigation of nursing interventions that make a difference in outcomes. We are so grateful to Kathy and honor her exemplary contributions.
Kathy’s Children’s Hospital of Wisconsin Nursing Colleagues

Vickie Stangel, in recognition and appreciation of her efforts to make our conference raffle a success and her support for children and families in Dodgeville, WI.
Kathleen Knafl

Veronica Swallow, in recognition of her research and leadership in founding the UK and Ireland IFNA chapter.
Kathleen Knafl

Trudeau Family, they have done such an awesome job raising 2 beautiful healthy young men (who have T1D) and have been so generous in sharing their experiences with me. Talk about community leaders, the whole family are always willing to help others trying to navigate diabetes self management.
Susan Sullivan Bolyai

Connie M. Ulrich, for years of support and guidance when I lacked faith in myself. And for inspiring my bioethics inquiry!
Kim Mooney-Doyle

Marcia Van Riper, in recognition of her research on resiliency in families of children with Down syndrome and her leadership in international family research.
Kathleen Knafl

Marcia Van Riper, in recognition of all her contributions to health and wellbeing of people with Down syndrome and their families.
George Knafl

Debra Wiegand, to honor a legacy as mentor, visionary researcher and international scholar in Family end of life decision making.
Suzanne Feetham

Debra Wiegand, in memory of her and her many accomplishments during her life.
University of Maryland School of Nursing

Debra Wiegand, honoring her untimely death this past year and her many contributions to family nursing, hospice and palliative care, critical care, and heart disease.
Janet A. Deatrick

Debra Wiegand, in recognition of her resolute and determined support for family nursing. She was the very best.
Kathleen Knafl

Debra Wiegand, she let her light shine and is sorely missed.
Kim Mooney-Doyle

Linda Young, in recognition of her leadership on the Resource Advancement Committee and support for family nursing among deans and directors.
Kathleen Knafl

Debbie Zaparoni, in recognition of all she does for IFNA. Debbie is the glue that holds us all together. She’s the best!

**SOLD OUT**
Penn Nursing is proud to be a World Health Organization Collaborating Center for Nursing and Midwifery Leadership—a long-standing, uninterrupted legacy since being first designated more than 30 years ago.

In a time when public health issues like opioid addiction, the impact of gun violence, the need for quality long-term care for elders with multiple chronic illnesses, and the equally pressing need to build a brighter and healthier future for all are reaching critical levels, Penn Nursing is focused on not just creating, but implementing, solutions across the globe.

Join us!

There’s a lot to love about working at UVA School of Nursing, a place repeatedly applauded for its health, diversity, intellectual rigor and strategic focus on compassion.

Maybe that’s why we’re academic home to so many scholar-leaders, why applications soar and programs expand, why our curricula earn accolades, and why new and veteran faculty from all walks of life vie to find a home here. As Virginia’s only graduate nursing programs ranked among the nation’s top 25, our faculty are breaking ground in dementia treatment to palliative care, intimate partner violence to pediatrics, closing health disparities gaps and delving into mindfulness and resilience topics. With a host of federally-funded grants at their disposal, nursing professors are at the top of their professional game—and ready to mentor tomorrow’s very best nurse scientists.

Curious about a role at the nation’s #2 public university? We’d love to hear your story. Call us. Email us. Visit. You’ll see why we’re so special.
