## International Family Nursing Association (IFNA): Who We Are

The International Family Nursing Association is the only international nursing organization focusing exclusively on family health. IFNA examines health issues holistically across the family health life cycle. Our members are nurse leaders from around the world who are united in their vision of transforming the practice of family health through research, providing the evidence base for family-centered and engaged care, educating the next generation of family nurses, and enhancing hands-on efforts to improve the care of families in healthcare systems.

**The 14<sup>th</sup> International Family Nursing Conference, *Social Determinants of Family Health: Expanding Family Nursing Capacity* will take place August 13–16, 2019, in Washington, D.C.**

## Who benefits from IFNA?

- Families across the world
- Healthcare and social institutions and agencies, including hospitals and health systems, schools of nursing, and nursing associations and societies
- Family health organizations
- Health publishing companies
- Governmental and non-governmental organizations
- Foundations

## What's the impact of your partnership?

Your organization will lead, mentor, and collaborate with colleagues from around the world. Your sponsorship and exhibit will help:

- Drive global transformational change for family health
- Integrate clinical competencies of family nursing practice and education across healthcare using the IFNA Position Statements on Generalist and Advanced Family Nursing Practice and Pre-Licensure and Graduate Family Nursing Education
- Design and implement a strategic plan for global family nursing research
- Build strategic alliances with other major nursing organizations
- Support webinars on family nursing practice, research, and educational topics

## About IFNA

**Core Values:** Embracing a compassionate family focus on health, social justice, human dignity, and respect for all

**Vision:** Nurses transforming health for families worldwide

**Mission:** The mission of IFNA is to transform family health by:

- Serving as a global unifying force and voice for family nursing
- Sharing knowledge, best practices, and skills to enhance and nurture practice
- Providing family nursing leadership on all aspects of family nursing through scholarship, socialization, education, and collegial exchange
